Profile

Alwaysz Travelz was founded by Mr. Kumail Rizvi in 2006. After an extensive experience in human resources and recruitment, Mr. Rizvi recognized a deficiency in the functional quality of regional placement firms, so he set out to fully train and develop a small team of committed individuals to take on the challenge.

Alwaysz Travelz has become a company that:

- Employs a team of dedicated and efficient consultants and support staff.
- Develops a strong relationship with their clients and candidates.
- Has a reputation as a leader in the recruitment company.
- Has the ability to recruit internationally, nationally and locally.
- Alwaysz Travelz is widely known and respected for its expertise in the search and placement of human resource. We have the experience and capacity to provide a full range of management recruiting services.
- We have established an impeccable reputation for personnel placements and continue to possess the most comprehensive data in this regard. Alwaysz Travelz possesses an enviable record of accomplishment that remains open to scrutiny.
- We are a company that has stood the test of time and bouts of economic malaise as we continue to grow alongside our clients.

Our Commitment

We are committed to a professional attitude towards all our activities.

In recruiting procedures, our professional approach is characterized by rigorous sourcing campaigns. These are coupled with a personal screening of candidates and extensive reference evaluations. Our methods are thorough and disciplined.

We know the importance of keeping in close contact with a client while an assignment is in progress. To ensure effective communications at all times, we assign a permanent team of two consultants to counsel and work with each client.

We are committed to exercising the utmost discretion when called upon to resolve sensitive situations. One example is finding a replacement when a termination is pending, another is hiring a key person from a competitor. Knowing that an indiscretion will travel at the speed of sound, we are adamant about confidentiality. Both the client and the candidate have the right to expect it and demand it.

We recognize that a mistake in hiring is costly in terms of money, morale and productivity. A strong match, on the other hand, brings rewards to everyone and our people share the resulting sense of satisfaction equally

Skills

- We consider the diligent application of our skills a pre-requisite to establishing a trust relationship and a rapport with clients and candidates.
- Strong listening, interviewing, negotiating and closing skills are paramount because both are correlated to the success of our endeavors. These skills are highly developed among our consultants, as are the abilities to persuade and motivate. Of equal importance to us are tact, tenacity and diplomacy. All of these skills are crucial to fulfilling our mandate. Be assured that none is taken for granted.
- Our consultants work as a team in servicing our clients and keep in constant contact to ensure continued quality and professionalism.
- Clients continue to laud Alwaysz Travelz for the determination and vigor we employ. They are never offered less than the best selection of candidates. In some instances, it may be an aggressive approach that helps achieve that goal but, as always, the emphasis is on discretion.
- We at Alwaysz Travelz have an aggregate of more than 16 years experience in recruitment sector.
